## Objective

- Self-Motivated and hardworking fresher seeking for an opportunity to work in a challenges to prove my skills and utilize my knowledge & intelligence in the growth of the organization.

## Experience

- Fresher

## Education

### ST. ANDREWS INSTITUTE OF TECHNOLOGY AND MANAGEMENT

(GURGAON, HARYANA)

- Bachelor in Computer Application (BCA)

(2019-2022)

### SCHOOL

- 12<sup>th</sup> from HBSE in 2019
- 10<sup>th</sup> from HBSE in 2017

## Projects

### CURRENT WEATHER

- Build a Website using JavaScript , HTML and CSS. It helps the users to know their weather status by using its location and also search by a city name. Here I'm using Fetch method in JavaScript that help us to fetch the data from API.

### KEEP NOTES

- This is a simple project developed by using JavaScript, CSS and HTML. This is an interesting project. Here, user can add the number of notes (to-do work details) and see the stored list in the form of sticky notes. Also, user can edit or delete the notes.

### YOUTUBE-CLONE

- YouTube clone developed using React, Tailwind CSS, and API integration.
- Utilizes Context API for state management and provides responsive design for seamless user experience across devices.
- Features include login using firebase functionality and hover-to-play video previews, enhancing user engagement and interaction.

## Technical Skills

**Languages:** C/C++, Java, JavaScript

**Technical Skills:** Data Structure And Algorithm

**Web Development:** HTML, CSS, JavaScript, React, Tailwind, Git, Github
